

**REaL DATA  
WORK GROUP**

# Race, Ethnicity and Language (REaL) Data Work Group

Increase the capacity in NH for the collection of high quality **Race, Ethnicity and Language (REaL) data** across all systems at the state and local level to identify disparities and promote utilization of data **to inform improvements, policies and procedures.**

REaL Data Logic Model (as of 8/21/17)

KEY ASSUMPTION: Accurate statistics for all demographic groups is the basis for effective programming and monitoring to achieve healthy outcomes for all populations

# Knowledge Building

- Extensive/lengthy review of existing resources
  - materials, toolkits, videos, etc.
- What are the best practices / guidelines?
  - Race/ethnicity
  - Granular ethnicity / country of origin
  - Language
  - Sexual Orientation / Gender Identity (SOGI)

# Materials Development

- Determined desire to create a NH-tailored toolkit
- Identified needed topics:
  - WHY: The importance of REaL data collection and use
  - WHAT: Existing guidelines and standards for the collection of high quality data
  - HOW: Best practices for training staff for accurate data collection
